

## Risk Class

<b>Class</b>	<b>Description of “Risk Class”#</b>	<b>Containment Level</b>
1	Activities of no or negligible risk to human health and/or the environment	1
2	Activities of low risk to human health and/or the environment	2
3	Activities of moderate risk to human health and/or the environment	3
4	Activities of high risk to human health and/or the environment	4

# The degree of “risk” is based on whether the genetically modified organism presents a greater or lesser risk to human health or the environment than the unmodified organism or “wildtype”.
